- 6) Incomplete applications shall not be accepted, additional documents shall not be submitted.
- 7) In the evaluation of the application, the scores earned in individual categories shall be considered with the following weights:

Activities	Rate
evaluation of academic results	60%
evaluation of scientific activity	30%
general evaluation of public affairs and student association activity	10%
general evaluation of sports activity	
professional activity in student association	
Total	100%

- 8) Academic results shall be evaluated on the basis of the Grade Point Average.
- 9) The activities to be evaluated in individual categories, the scores to be obtained and the samples of the necessary certificates are included in the annex to the call for applications.
- 10) The final score of the applying student shall be formulated according to the scoring system in the annex, and maximum 100 points can be achieved in total.
- 11) Applications will be checked and ranked by the Student Social Committee.
- 12) National Higher Education Scholarships may be granted to students who meet both of the following two conditions at the same time:
  - a) their total score from the maximum possible 100 points reaches or exceeds 30 points, and

- b) in the established ranking, based on their score achieved in the current call for proposals issued by the minister for education, they are included in the first two (2) students with the highest scores.
- 13)** Under the powers delegated by the Senate, the Vice-Rector for Education makes proposals to the competent minister about granting National Higher Education Scholarships.
- 14)** The competent minister shall decide about the granting of scholarships.
- 15)** Rules of disbursing the National Higher Education Scholarship
- a) The National Higher Education Scholarship - based on the ranking suggested by the University - is granted by the minister responsible for education to the selected individuals.
- b) The monthly amount of the National Higher Education Scholarship in academic year 2024/2025 is HUF 40,000 / person / month on the basis of Article 24 (1) of the Decree.
- c) A student who won a National Higher Education Scholarship shall not be excluded from study scholarships.
- d) The National Higher Education Scholarship may be granted for the period of one academic year (10 months). Pursuant to Article 24 (6) of the Decree, if the student's student status or eligibility for scholarship is terminated or suspended for any reason on the basis of valid legal regulations (e.g. deferring studies for a year, completion of studies, or based on point 4, the applying student does not continue his/her studies at the University in a master's programme), the disbursement of the scholarship shall not continue after the termination or the start of suspension. A scholarship won for academic year 2024/2025 shall be disbursed in academic year 2024/2025 only. The disbursement of the National Higher Education Scholarship shall not be rescheduled beyond the academic year following the application.
- 16)** An application for legal remedy shall be submitted within 15 days of the communication of the decision, addressed to the Student Appeals Committee in Neptun.
- 17)** Based on the proposal of the University, the list of students provided with National Higher Education Scholarship shall be given to the Rector of the University in writing.

**Budapest, 05.24.2024.**

Dr. Vas Réka Franciska  
Vice-Rector for Education

## Annex

The Student Social Committee shall evaluate the applications according to the following scoring system:

Maximum 100 points may be achieved.

1. Evaluation of academic results (maximum 60 points):

a) The calculation of academic results is based on the simple arithmetic average of the Grade Point Average in the last two closed active semesters of the student (hereinafter as: National Higher Education Scholarship average).

$$\text{Scholarship average} = \frac{\sum 1,2 \times \text{kredit}^K \times \text{érdemjegy}^K + \sum \text{kredit}^V \times \text{érdemjegy}^V}{\sum 1,2 \times \text{kredit}^K + \sum \text{kredit}^V}$$

- i. where K is: all compulsory/compulsory optional subjects stated in the sample curriculum/operational curriculum and subjects compulsory in specialisation/academic specialisation
- ii. V: optional subjects taken according to the sample curriculum

b) the calculation of the scholarship average and the average academic results weighted with credits is based on the results of all the subjects taken by the student in the affected semester(s).

- i) Marks accomplished under a further (parallel) student status established in another higher education institution, in any internal parallel training cannot be included in the calculation of the scholarship average.
- ii) Subjects closed with a fail grade or with a 'missed exam' or 'no show' entry are included in the numerator of the formula with zero marks, an exception to this is, if the student, in the case of a given subject in the course of improving a successful examination does not attend the examination and receives a 'not present/absent' entry; in this case the last successful grade and credit value of the given subject is indicated in the numerator.
- iii) Subjects prescribed for students in master's programmes - in the higher education admission procedure, in the course of the preliminary credit recognition procedure, following the recognition of credits archived in relation to prior studies - as mandatory conditions of admission, in addition to credits required for the degree, in parallel with the training aimed at obtaining a master's level degree are not recognized in the scholarship average.
- iv) Regardless of whether the student accomplished the subjects based on a guest student status established in a higher education institution in

Hungary or abroad, any subject accomplished on the basis of a guest student status must be considered as if the student accomplished them at the University and their results must be included in the calculation of the scholarship average with the credit values and marks approved by the Credit Transfer Committee.

In the case of a National Higher Education Scholarship average of 4.5, the student gets 30 points, while in the case of a National Higher Education Scholarship average of 5.00, the student gets 60 points. In the case of an average between these two limits, the score to be earned is defined with the following formula:

Score of academic results:

$30 + (\text{National Higher Education Scholarship average} - 4,50) \times 60$ , rounded to integer, where:

- 30 is the minimum possible academic score,
- 4.50 is the minimum National Higher Education Scholarship average, for which academic points can be awarded,
- 60 is the multiplier to be used for the definition of the actual score.

When rounding the score of academic results, the general rules of rounding shall be followed. E.g. from 30.00 to 30.49, it is 30 points, from 30.50 to 31.49, it is 31 points.

E.g. the students' scholarship average in the autumn semester: 4.66, the scholarship average of the spring semester: 4.72, based on the simple arithmetic average of the scholarship averages of the last two active semesters, the National Higher Education Scholarship average is: 4.69 Based on that, the student gets 41 points for his/her academic results -  $30 + (4.69 - 4.50) \times 60 = 41.40$

In the case of National Higher Education Scholarship averages between the two limit values, possible scores are included in the following table:

National Higher Education Scholarship average	Academic score	National Higher Education Scholarship average	Academic score	National Higher Education Scholarship average	Academic score
4.50	30	4.67	40	4.84	50
4.51	31	4.68	41	4.85	51
