Nowadays, thousands of students attend lectures in this gorgeous atmosphere on a daily basis.

## Building C

The newest of our buildings, “C” was completed in 2007. It has a state-of-the-art interior with spacious community areas and special wall light installations. The building also hosts the **450-seat central library of the university, which contains 100,000 covers**, numerous journals, computer rooms, finance lab and access to research databases.

## Sóház Building (Salt House, “S”)

The Sóház (Salt House or “S”) Building was built in the 1886 as an office building, serving the city’s Main Custom House (historically, Building E!). Since 1999, it has belonged to Corvinus. The building contains several computer labs, as well as smaller lecture theatres and teaching rooms.
