ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

Preamble

1.§

- (1) Pursuant to Point t) of Subsection (2) of Section 2 of Part 1 “Admission Regulation” (hereinafter: AR) of the Student Requirements, I hereby issue the following rules for the central admission procedure of 2024 (general procedure and clearing process) as regards the type of certificates required for the calculation of institutional points in bachelor and single-cycle programmes and for the calculation of extra points in master programmes as well as the method and form of their submission.

Scope

2.§

- (1) The personal scope of the Provisions of the Vice-Rector for Education covers the following:
- a) applicants applying for admission to the Corvinus University of Budapest (hereinafter: University) in the central admission procedure (general procedure and clearing process) of 2024 for bachelor, single-cycle and master programmes,
 - b) persons, organisational units and bodies involved in admission matters.

Definitions

3.§

- (1) The terms used in these Provisions shall have the meanings given to them in Section 3 of the AR and in Section 3 of the AR.

(1) Proof of language proficiency

- a) Proofing method, by language and by level
- b) Supporting document:

Proof of language proficiency can be provided by a language examination certificate recognised by the state or equivalent document, such as:

- a decision on the nostrification/recognition of the foreign language examination certificate in Hungary,
 - a certificate of secondary education or higher education obtained abroad in a state-recognised institution,
 - an appropriate secondary school-leaving certificate from a nationality secondary school, etc.
- c) Oral (formerly type A) and written (formerly type B) language examination certificates in the same language at the same level are automatically considered complex (formerly type C). If an applicant records oral (formerly type A) and written (formerly type B) examination certificates of two different levels, the lower level may be taken into account.
 - d) A partial monolingual written/oral language examination certificate and a partial bilingual written/oral language examination certificate in the same language and at the same level are together considered to be a monolingual complex language certificate. The combination of partial monolingual and bilingual language examination certificates is governed by the previous Subsection.
 - e) For specialist language examination certificates, the recognition of oral and written language examination certificates as complex language examination certificates is not automatic, as only partial specialist language examination certificates with the same content may be combined.
 - f) An official certificate of combinability issued by the Language Examination Accreditation Department of the Educational Authority (Nyelvizsgáztatási Akkreditációs Központ in Hungarian, hereinafter: NYAK) may be accepted for the procedure.
 - g) Correction of incorrect data on the certificate:

If the language examination certificate contains incorrect data (e.g. incorrect place of birth or two first names), the NYAK will issue an official certificate within 8 days on request to the NYAK, free of charge, which the applicant shall upload to the electronic admission interface (e-felvételi in Hungarian).

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

h) Replacement of lost language examination certificates:

If the language examination certificate has been lost, the NYAK will issue an official certificate at the applicant's request, attesting to the fact that the language examination certificate in question was obtained.

i) Provision of language examination certificate data:

ia) During the higher education admission procedure, the authenticity of state-recognised language examination certificates shall be checked on the basis of mandatory data (language, level, type, certificate number, registration number and date of issue).

ib) A certificate of successful language examination issued by the accredited examination centre or examination venue organising the examination shall not be accepted as a language examination certificate. The NYAK will not issue a certificate of successful language examination before printing the certificate.

ic) The official documents, certificates and naturalisation decisions issued by the NYAK attesting the level of language proficiency are also equivalent to a language examination certificate, so it is not mandatory to submit the document on which they are based.

id) The various documents issued by language examination centres do not certify the existence of a language examination certificate in the admission procedure. The NYAK issues a so-called information document on the documents certifying successful examination equivalent to the state language examination listed in the annex of Decree No. 3/1980 (25 October) of the Minister of Labour on the state language examination to demonstrate foreign language skills as well as language examination certificates, if the exam was passed on the basis of a legal relationship entered into after 31 December 1950 and before 31 December 1999.

ie) The rigorosum, final examination, interpreter diploma, etc. in the annex of the Decree above may entitle its holder to institutional points in combination with the information document issued by the NYAK. If the information document is submitted, it is not necessary to send the document on which it is based. If you do not have the NYAK information document, you shall send a copy of the pages of the transcript containing your personal data and details of the programme (programme title, course, mode of study, etc.).

j) Language examination certificates obtained in another country:

ja) Language examination certificates obtained in another country may only be taken into account in the admission procedure if they have been naturalised by the NYAK or, before 2000, by the State Language Examination Board and a decision has been made on this.

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

- jb) An exception to this, i.e. no naturalisation is required, are the following language examination certificates that are equivalent to Hungarian language examination certificates under international cultural conventions
- Language examination certificates obtained in the Cambridge Assessment English foreign language examination, if obtained after 24 December 2020, and
 - language examination certificates obtained in the Goethe Institut foreign language examination, if the applicant has obtained it after 2 October 2021.
- k) Language examination certificates based on a Hungarian secondary school-leaving certificate/attestation:
- ka) Secondary school-leaving certificates obtained in secondary schools with two languages of instruction or national minority schools are considered equivalent to language examination certificates under the conditions set out in Section 54 of Government Decree No. 100/1997 (13 June) and certify specific language proficiency.
- kb) Advanced level secondary school-leaving examination, passed with at least 60%, in a foreign language or in national minority education involving foreign language teaching, which is included in the secondary school-leaving certificate or attestation, shall qualify as a level B2 (formerly intermediate) complex (formerly type type C) language examination certificate, under the conditions set out in the examination regulations.
- l) Language examination certificate on the basis of a secondary school-leaving certificate obtained abroad:
- la) A secondary school-leaving certificate from a foreign secondary school with Hungarian as the language of instruction shall qualify as a level B2 (formerly intermediate level) complex language examination certificate in the language of the country. If the applicant submits an official certificate (with proper heading, signature, stamp and date) issued by a secondary school with Hungarian as the language of instruction stating that the applicant studied at least one subject¹ in the language of its country for at least two years, his/her secondary school-leaving certificate is equivalent to a level C1 (formerly advanced level) complex language examination certificate in the language of that country.
- lb) If the language of instruction is mentioned in the foreign secondary school-leaving certificate or its annex, the correspondence with the level of the language

¹ General secondary school-leaving examination subjects, if they are mentioned as such in the secondary school-leaving certificate: e.g. mathematics, Hungarian language and literature, language of the country, language and literature of the country, foreign language, history, geography, physics, biology, chemistry, social studies, sciences, law enforcement, economics, informatics, physical education, military basics, Latin language.

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

examination certificate shall be established according to the language of instruction mentioned in the certificate. If the language of instruction for all subjects is Hungarian, school certificates on other languages may not be accepted and the secondary school-leaving certificate is equivalent to a level B2 (formerly intermediate) language examination certificate. In order to recognise it as a level C1 (formerly advanced level) language examination certificate, the applicant shall submit all pages of his/her foreign secondary school-leaving certificate, including the annex.

- lc) A secondary school-leaving certificate from a state-recognised foreign secondary education institution attesting to studies in a foreign language, i.e. a language other than Hungarian, is equivalent to a state-recognised, general, monolingual, complex and level C1 (formerly advanced level) language examination certificate in the language of instruction.
- ld) An institutional point may therefore be awarded if the applicant has studied in a language other than Hungarian. Institutional points for languages may only be awarded on the basis of documents proving secondary education, which can be considered equivalent to a Hungarian school-leaving certificate and which have been uploaded in full.
- le) Primary school certificates are not acceptable in the admission procedure, because according to Subsection (9) of Section 14 of Government Decree No. 137/2008 (16 May) on the state-recognised language examination and the naturalisation in Hungary of language examination certificates issued abroad certifying foreign language proficiency, only studies at a foreign educational institution and successfully completed (certified by a secondary school-leaving certificate) may be certified.
- m) Language examination certificate on the basis of a Hungarian diploma:
- ma) Only the following diplomas and degrees obtained from a Hungarian higher education institution may be recognised as a general bilingual complex level C1 (advanced level) language examination certificate recognised by the state:
- liberal arts degrees in modern or classical languages,
 - teacher's diploma in living or classical language and literature, language teaching or teacher's diploma with a master's degree in foreign languages,
 - primary school teacher's diploma in foreign language teaching,
 - primary and secondary school teacher's diploma in national minority language and culture and national minority kindergarten teacher's diploma,
 - and diploma or certificate of competence awarded on completion of training as a professional translator or interpreter.

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

- mb) A bachelor's degree in a foreign language, which certifies a professional qualification in a foreign language, is equivalent to a state-recognised, bilingual, complex and level C1 (advanced level) language examination certificate for the language indicated in the qualification. A bachelor's degree in humanities, which indicates a specialisation in a foreign language, is equivalent to a general bilingual complex language examination certificate at the level corresponding to the outcome level in terms of languages as specified in the programme and outcome requirements.
- mc) A diploma attesting to studies pursued and completed in a foreign language is equivalent to a state-recognised, monolingual, complex level C1 (advanced) language examination certificate in the language of instruction.
- md) A diploma or certificate of competence awarded on completion of training as a professional translator or interpreter qualifies as a state-recognised specialised bilingual complex level C1 (advanced) language examination certificate in the language studied. A diploma in interpreting and translating qualifies as a state-recognised general bilingual complex level C1 (advanced) language examination certificate in the language studies.
- n) Language examination certificate based on a foreign diploma:
As regards the language of instruction, a state-recognised diploma from a foreign higher education institution, which attests to tertiary education, qualifies as a state-recognised general monolingual complex level C1 (advanced) language examination certificate if the applicant has pursued his/her studies in a language other than Hungarian and he/she can produce documentary evidence thereof.
- o) Other rules for recognising attainments as language examination certificates:
- oa) A degree in foreign languages from a foreign higher education institution and a teacher's diploma in a foreign language and literature, a diploma in language teaching and a teacher's diploma with a master degree in a foreign language also qualify as a state-recognised general complex level C1 (advanced) language examination certificate, but only for the foreign language studied.
- ob) For recognition as a language examination certificate and determining the language of instruction, a certificate issued by the higher education institution or the diploma supplement is required. If the language of instruction cannot be clearly established from the documents submitted (diploma, certificate, diploma supplement) or due to their absence, no institutional points for language examination certificates can be awarded for the higher education diploma.
- p) Rules for submission: Documents supporting entitlement shall be uploaded to the Educational Authority's electronic admission system (e-felvételi in Hungarian). There

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

is no need to upload state-recognised language examination certificates obtained in Hungary, as these results are automatically retrieved from an official public register.

- (2) Proof of advanced-level secondary school-leaving examination
- a) Supporting document: secondary school-leaving certificate
 - b) Rules for submission:
 - ba) Documents supporting entitlement shall be uploaded to the Educational Authority's electronic admission system (e-felvételi in Hungarian).
 - bb) There is no need to upload Hungarian secondary school-leaving certificates and school-leaving attestations issued in Hungary after 1 January 2006, because these results are automatically obtained from an official public register.
- (3) International Baccalaureate (IB) diploma:
- a) Supporting document: international baccalaureate diploma
 - b) Rules for submission: Documents supporting entitlement shall be uploaded to the Educational Authority's electronic admission system (e-felvételi in Hungarian).
- (4) Documents for equal opportunities
- a) Types of equality: disability, disadvantage, childcare
 - b) Proof of disability
 - ba) The applicant's disability or special educational needs can only be confirmed by a detailed expert opinion.
 - bb) The expert opinion must always include the name of the disability and/or the BNO code. Failing this, the document will not be accepted. If the expert opinion contains a reference to a review, the expert opinion (addendum, amendment) of the review must also be submitted. However, the addition or amendment can only be accepted together with the detailed expert opinion. The entitlement must apply for the period between the publication of the Higher Education Admission Bulletin and 10 July 2024. (This date is not the same as the date of issue of the document.)
 - bc) An extract, summary expert opinion, supplementary expert opinion or certificate from the issuing body alone is not acceptable as proof of disability, even if it would otherwise be (formally) appropriate. Nor can a preliminary expert opinion be accepted, as it only provides information on the expected content of the final expert opinion, which can still be appealed by the parent or adult pupil. If the applicant's disability or special educational need(s) already exist(s) during secondary education, the disability or special educational need can be confirmed by a detailed expert opinion. Pursuant to Decree No. 15/2013 (26 February) of the Minister of Human Capacities on the functioning of pedagogical service institutions, the expert report shall be prepared by the expert committee of the county (capital) pedagogical

service (or their member institutions acting as county or national expert committees) in the context of expert committee activities. (Of the legal predecessors of the pedagogical services, the expert and rehabilitation committees for learning ability and the national expert and rehabilitation committees may issue expert opinions.)

- bd) Students (applicants) who did not have a disability or special educational needs during their secondary education may apply for a disability assessment from the ELTE National Pedagogical Professional Service (ELTE Gyakorló Országos Pedagógiai Szakszolgálat) after 1 September 2020. Expert opinions that are final (i.e. without a review period) and were issued by the legal predecessors of rehabilitation administrative bodies (e.g. capital and county government offices, NRSZH, OOSZI, etc.) are of course still acceptable.
- be) Certificates, decisions and other documents issued by the following organisations are also not acceptable: Authority positions and official certificates, because they only contain the extent of the impairment, not the name of the disability. Expert reports issued by the county (capital city) pedagogical services on integration, learning and behavioural difficulties, and previously issued by educational counsellors. Expert opinions, extracts of expert opinions and certificates issued by a forensic expert (if issued after 1 January 2008). Specialist medical opinion (if issued after 1 January 2008). Ambulance card, hospital discharge report, specialist certificate, medical report, referral. Other certificates with medical signature and stamp (e.g. Hungarian State Treasury, Regional State Treasury Office, National Health Insurance Fund, etc.). Secondary school decisions on a subject exemption. A decision issued by a higher education institution exempting the applicant from taking a state-recognised language examination on the grounds of disability. Reports, treatment sheets and other certificates issued by psychiatric hospitals, the Hungarian Autism Foundation (and Research Group), the Vadaskert Hospital and the Budapest Early Development Centre. Decision on disability benefit, because it does not specify the disability, only a reference to the decision of the National Office for Rehabilitation and Social Affairs or its predecessors. Decisions on blindness benefits, because they do not specify the disability, but only refer to the decision of the National Office for Rehabilitation and Social Affairs and its predecessors. Official cards (blind, disabled or deaf card). Documents issued by speech and language therapy institutes. Certificates issued by the Demosthenes Foundation. Certificates of the Meixner Foundation. Bank statements for disability benefits, blindness benefits or so-called “pink payment orders”. Payment receipts, tax documents or certificates for tax relief. Prescription exemption certificate. Expert opinions of speech improvement institutes. Official certificates issued by the Hungarian State Treasury (MÁK) or the National Health Insurance Fund (OEP) on the increased amount of family allowance. Certificates from the general

practitioner. The audiogram and the recommendation to wear a hearing aid. In the case of applicants living/residing abroad or if the applicant does not have a residence or domicile in Hungary, an expert opinion issued by the ELTE National Pedagogical Professional Service may be accepted.

c) Proof of disadvantaged status

ca) A certificate or a resolution of the notary or the competent guardianship authority may be accepted as proof of disadvantaged status. If it establishes only a regular child protection benefit, it cannot be accepted as a proof of disadvantaged status on its own under Section 67/A of Act XXXI of 1997.

cb) The entitlement must apply for the period between the publication of the Higher Education Admission Bulletin and 10 July 2024.

cc) The certificate/resolution can be accepted if it contains: the name and the identification data of the applicant, the fact and date of eligibility, the name of the issuer and the number of the certificate/resolution, the authentic signature and stamp of the issuing authority.

cd) Inadmissible documents: a certificate of national minority origin, orphan benefit documents, document appointing a guardian on an ad hoc basis, document on adoption into the family, family allowance resolution, probate report, death certificate, certificate/resolution issued by the pension disbursement authority, resolution awarding pension payment to a relative, divorce papers, official certificates on an increased amount of family allowance, medical documents/expert opinions, medical documents/expert opinions of relatives, documents not in the applicant's name, reports, certificate of the infrastructure situation of the place of residence, housing allowance document, a certificate of independent living, a declaration of address of the persons living in the same household, a document on social shopping discount, official certificates, information materials, a resolution with an expired eligibility deadline, a resolution establishing only the regular child-protection benefit, only a certificate of full-time student status issued by the educational institution, absence of page(s) containing personal identification data (date and place of birth, mother's name), eligibility period and entitlement, absence of page(s) bearing the authentic signature and stamp of the issuing authority.

ce) A certificate of full-time student status issued by the educational institution must also be submitted.

cf) Institutional points for disadvantaged status can only be awarded on the basis of documents issued by a Hungarian authority.

d) Proof of childcare

da) Eligibility for institutional points for childcare shall be supported with the following:

ON THE TYPE OF CERTIFICATES REQUIRED FOR THE CALCULATION OF INSTITUTIONAL POINTS IN BACHELOR AND SINGLE-CYCLE PROGRAMMES AND FOR THE CALCULATION OF EXTRA POINTS IN MASTER PROGRAMMES AND THE METHOD OF THEIR SUBMISSION IN THE CENTRAL ADMISSION PROCEDURE OF 2024

- in the case of infant care benefit (CSED), adoption benefit (ÖD), child-care assistance benefit (GYES), child-care benefit (GYED) and child rearing allowance (GYET), a certificate or resolution issued by the body disbursing the aid (branches of the Hungarian State Treasury, government offices),
 - in the case of child home care allowance (GYOD) and child care allowance, an official certificate issued by the body that established the aid (the District Office of the Capital City/County Government Office),
