Introduction

Dear Students!

This guide is designed to help you apply for the Regular Social Grant. However, please note that **this guide is not a substitute for any official documents**. A thorough study of the Application for regular social grant and the Provisions of The Vice-Rector for Education 3/2023 is essential for the accurate submission of your application.

In this guide, you will first find some general information, followed by the certificates for the two statuses. Then you will find the certificates for applicants with permanent residence abroad, and finally some sample documents with the correct fillers.

General information

What is regular social grant?

The regular social grant is a monthly financial benefit for one semester, based on the student's social situation, and can be obtained by applying for a scholarship.

Who can apply for the scholarship?

Any full-time (day-time) student with an active status attending a bachelor's degree programme or a two-cycle or single cycle master's degree programme in the particular semester may apply for the grant from the 1st semester of his/her first year.

Where to submit your application?

Applications should be submitted in the Neptun Unified Education System (hereinafter: "Neptun") under the menu "Administration/Requests/Available Request Forms" using the application form "P201- Application for Regular Social Grant".

When to submit your application?

For students who are also **applying for dormitory** the application period is between **July 29th 2024 10 a.m. and August 5th 2024 12:00 p.m.**

For all students requesting a social grant who did not apply in the 1st round:
September 2nd 2024 10 a.m. - September 8th 2024 12 p.m.

**NO DOCUMENTS
CAN BE SUBMITTED
AFTER THE
DEADLINE!**

What documents should you study before submitting your application?

Provisions of **The Vice-Rector for Education 5/2024**. contains the certificates to be submitted:

- Available here: <https://unicorvinus.sharepoint.com/.../Ek4fhGvK...>

Why such certificates and how should they be submitted?

Legislative Decree 51/2007 regulates which certificates can be requested and we cannot deviate from this.

In what form should the certificates be submitted?

Only documents uploaded in PDF format will be accepted and the individual files must not exceed 2048 kB in size.

- Here you can convert your JPG document to PDF for free: <https://smallpdf.com/jpg-to-pdf>
- Here you can reduce the size of documents by maintaining good quality: https://www.ilovepdf.com/compress_pdf

You should name the uploaded documents accordingly. This can be a great help for the judges and for you to check that you have attached all the documents.

Neptun keeps your documents, you don't need to retrieve them from your computer, you can choose the right one from the documents stored on Neptun. It is important that you only use this method if you want to attach a document that could be older than 3 months (e.g.: address card).

The easiest way to crop your personal information is to use a digital marker (provided by the program you open the document in) to blank out unnecessary data. Also, another option is to insert a rectangle in Paint in front of the data you want to erase.

Some useful information about the certificates

For some certificates, it is important that they are no more than 3 months old. This should be understood in relation to the start date of the application (**29 July 2024**), so certificates dated after **29 April 2024** will be accepted.

The certificates must relate to the last three months: **April, May and June.**

Two types of declarations are distinguished: income-related and non-income-related. It is true for both that it must be dated no more than **3 months ago and include an undertaking to prosecute**. There is one important difference: **non-income-related declarations require the signature of 2 witnesses**, while **income-related declarations do not**. Witnesses cannot be applicants or persons under the age of 18.

Changes to watch out for this semester!!

Compared to previous semesters, these changes have been made:

- **The Population Registry Certificate must be for the address that is listed in the Neptun system.**
- **A person who does not live in the same household as the applicant but who supports the applicant's livelihood is also considered a maintainer.**
- **For self-sustaining applicants, utility bills must be in their own name or you must be listed as the tenant on the sublease.**
- **You can also prove someone's student status with a copy of both sides of their student ID card with a valid sticker for the 2023/24 academic year or for the 2024/24 spring semester.**
- **Self-sustaining applicants, who live in dormitories, the address of the dorm must be entered in Neptun. In their case, it is not necessary to attach the population registry certificate.**
- **When certifying income, the attached document must clearly show that the amount received is wages and include the name of the employee.**
- **Annex 4 must be attached even if the applicant's parents are separated or the parent(s) are not the breadwinner(s) and/or the parents of the dependent(s) in the household are separated.**
- **Proof of the amount of the pension and orphan's benefit must be provided by means of a bank transfer certificate, a postal order or a bank statement.**
- **If the monthly net income per person is below the minimum amount of the current old-age pension, you must attach bank statements for all private bank accounts of the household members.**
- **Only prescription-only medicines are accepted.**

How are applications assessed?

Applications are assessed by a team of student judges. Applications will be assessed in the order in which they are received. We try to process applications as quickly as possible, but due to the large number of applications (800-1200 applications are received every six months) it can sometimes take a while, so please be patient.

All referees sign a confidentiality agreement not to disclose personal data to third parties. Of course, we are human and we can make mistakes, but we are trying to make as few as possible. If you do not agree with the decision on your application, you have the right to appeal against the decision within 15 days of the decision being sent to you.

How are applications scored?

The final score is made up of 3 parts:

What does the threshold depend on and what are the amounts for each point?

Each semester the budget is different, the university gives us a budget for the regular and exceptional social grants, and any appeals are paid from this budget. In addition to the budget, the number of students applying varies from semester to semester, as does the social situation of the students. This means that the point thresholds and the amounts allocated to the points also vary accordingly. Each semester, we try to propose the point thresholds and the amounts allocated to points in a way that is as fair as possible.
