

Dear Students,

The Act CCIV of 2011 on National Higher Education (hereinafter: Nftv.) terminated the language examination requirements for the award of diplomas, and instead, it is the University's responsibility to instruct the foreign language skills required for the exercise of the professional qualification in the given field of study and for the assessment of this knowledge. For some courses, the training and outcome requirements for the course specify the foreign language proficiency to be achieved in the course, for others it is subject to the requirements set by the University.

The regulations on foreign language proficiency are contained in the Nftv., the training and outcome requirements of the degree programme and the Study and Examination Regulations (hereinafter referred to as the "Regulations") and the training programmes (as part of which the curriculum and the subject programme).

The training programmes, including the curricula and subject programmes, have been amended in line with said Decree and are available at the [Training Programmes – Corvinus University of Budapest](https://uni-corvinus.hu) (uni-corvinus.hu).

This change also applies to students who are already enrolled: in the case of Bachelor's and Master's Degree programmes, it applies to students who start their studies in or after the autumn semester of academic year 2021/22 (2021/2022/1), and in the case of split Master's Degree programmes, it applies to students who start their studies in or after the autumn semester of academic year 2022/23 (2022/2023/1).

Acquisition of foreign language skills in a degree programme at the University with a foreign language requirement is defined in the degree programme as "*Foreign language competence I.*" of 0 (zero) credit, which is completed by a signed, non-contact hourly criterion course.

The University offers the foreign language competence test in the following languages: English, German, French, Italian, Russian, Spanish, Portuguese. **Level: specialised foreign language – B2 level.** The examination arrangements for the subject are set out in the Regulations and the subject programme.

The Foreign language competence I. subject may be taken from the 5th semester onwards for Bachelor's and from the first semester onwards for Master's degrees.

Completion of the foreign language competence subject may be recognised by submitting the supporting documents specified in Annex 1. The application for recognition of the foreign language competence subject must be submitted in Neptun and accompanied by supporting documents.

The Foreign language competence I. criterion subject must always be taken in Neptun in the semester in which the student wishes to take the exam, but only if the student does not wish/is unable to take the option of substitution.

The subject of foreign language competence can be taken according to the rules for admission to the subject during the admission period.

Applications for recognition of the foreign language competence subject may be submitted at the same time as applications for standard credit recognition procedure. The application can be started by submitting a subject-specific application in Neptun (Subjects/Subject-related applications).

Students must complete the subject Foreign Language Competence I as indicated in Table 2.

Annex 1: Types of supporting documents

1) A state-recognised specialised language examination at level B2 in a foreign language other than the language of instruction of the student's course and/or an equivalent higher education qualification and/or a state-recognised general language examination at level C1 in a foreign language other than the language of instruction of the student's course.

- Proof of these must be provided in the form of a language test certificate and/or diploma.

2) Completion of studies in a foreign language other than the language of instruction of the student's training in a part-time joint degree programme or a double degree programme abroad, but with a minimum of twenty-one (21) credits in the relevant language.

- These must be supported by a transcript or other evidence of completion.

3) In a foreign language other than the language of instruction of the student's education, at least four (4) weeks of work experience abroad where the language was used as a working language during the work experience.

- Proof of these must be submitted: a certificate of completion.

4) The student has completed at least thirty (30) credits of the curriculum in a foreign language other than the language of instruction of the student's training in the course of the training programme, in which case

- the verification is based on Neptun data (e.g. DSG German language courses in Hungarian or English).

5) By submitting a TDK essay written in a foreign language other than the language of instruction of the student's course, if the student has passed the oral round and has presented his/her results orally in the foreign language (other than the language of instruction of the student's course).

- These must be accompanied by: a certificate of participation in the competition.

6) Participation in an international academic or professional competition in a foreign language other than the language of instruction of the student's course, provided that the student has presented his/her results orally and in writing in the foreign language (other than the language of instruction of the student's course).

- The following must be submitted as proof: certificate of participation in the competition.

Table 2. – Foreign language competence for specific purposes requirements in each programme:
