

Communication and Media Science Bachelor program

training program

For students who start in the fall semester of 2025/2026

Communication and Media Science Bachelor program

Valid: For students starting their studies in the 2025/2026/1 semester

General Informations:

Person responsible for the major: Dr. Tamás Bokor, Assistant Professor

Place of the training: Budapest

Training schedule: full-time

Language of the training: English

Is it offered as dual training: no

Specialization:

- 1. Name of specialisation:** Public Communication specialisation
- 2. Name of specialisation:** Közéleti kommunikáció specialisation
- 3. Name of specialisation:** Business Communication specialisation
- 4. Name of specialisation:** Global Connections and Communications specialisation
- 5. Name of specialisation:** Community Communication specialisation
- 6. Name of specialisation:** Global Social Challenges specialisation

1. Title of the Bachelor programme in English: Communication and Media Science

Title of the Bachelor programme in Hungarian: kommunikáció és médiatudomány

2. The level of qualification attainable in the bachelor's programme, and the title of the certification

qualification level: bachelor (baccalaureus, abbreviation: BA)

qualification in Hungarian: kommunikátor

qualification in English: Expert in Communication

3. Training area: social sciences

4. Training duration, in semesters: 6 semesters

5. The number of credits to be completed for the bachelor's degree: 180 credits

degree orientation: balanced (40-60 percent)

thesis credit value: 10 credits

minimum credit value of the comprehensive extra-institution practical training: 10 credits

minimum credit value of optional courses: 9 credits

6. International Standard Classification of Education field of education code: 321/0321

7. Bachelor's degree training objectives and professional competences

The objective of the degree is to train communication experts knowledgeable about the institutions and institutional systems in the various fields of communication. They are knowledgeable regarding the areas of societal communication, the structures of institutions in these areas, the primary institutions of communication and media, and the inner workings of communication and media. With the attained knowledge, abilities, and attitudes, they are completely capable of performing communication-related work in the institutions in the scenes of communication. They are prepared to continue their training at the master's level.

1. Attained professional competences

1. The communicator has

a. knowledge

Knows the main elements of the social sciences toolkit and understands the connections that serve as the basis of the scientific exploration of society and social communication.

Knows the main relationships regarding the functioning of society and the relevant scientific contexts.

Knows and understands the mechanisms of social phenomena explored by communication and media sciences and their subsystems.

Has an overview of the social spheres of the field: the normative systems and operational practices of institutions, the economy, politics, sciences, arts, morality, religion, language, and law.

Knows the most important factors of the social, structural, economic, and political processes that define the fields of communication and media,

Has a confident knowledge of methodology, understands and sees the possibilities and perspectives of methodological innovation.

b. skills

Is capable of navigating the deeper interconnections of the field and the practical social, communication, and media science-related problems and their possible solutions.

Is capable of efficiently processing new knowledge in the field. Handles printed and digital resources, social science and media research databases, and the devices that operate them with confidence.

Is capable of a synthesizing comparison of the basic theories and concepts of social communication, of expressing rational arguments, i.e. of forming an opinion and arguing for it in debates in various fields of communication.

Based on a basic theoretical knowledge, is capable of developing a working hypothesis that uncovers the real interrelationships of processes in the fields of social communication that explores facts, the most suitable empirical method to study it, and the concept of

Is capable of an in-depth analysis of facts gathered in the levels and fields of communication encountered during theoretical and practical work, and uncovering the interrelationships from the results.

Is capable of making realistic judgements based on processed information in the fields of communication and media research, and of formulating independent suggestions based on consequences drawn from these.

Uses the profession's vocabulary, basic scientific concepts, and the elements of the specialised vocabulary confidently.

Is capable of making decisions in professional (interpersonal, group, public, organisational, intercultural, and mass communication) decision-making processes on his/her field of expertise on the level of practical applicability.

c. attitudes

Is open to a dynamic and value-based reception of social changes, is open to adapt viewpoints that fight prejudices.

Accepts that cultural phenomena are historically and socially determined and changeable.

Accepts the religious and social, historical and present-day diversity of the Hungarian and the European identities, and assumes responsibility for the representation of these values.

Desires to learn about non-European cultures, is open to and tolerant of these cultures.

Accepts and consistently undertakes the diversity of thinking in social science, represents its basic world-view genuinely in his/her immediate and wider communities.

Is sensitive and open to the most severe social problems, with a world-view that is rooted in professional and personal solidarity with those less fortunate and more vulnerable.

Is dedicated to social equality, democratic values in every aspect of life, the rule of law, and the European community of values, and is capable of articulating opinions in the appropriate form.

Is open to all forms of professional innovation, is accepting but appropriately critical of theoretical, practical, and methodological innovation.

Is open to critical self-evaluation, the various forms of professional training, the self-improvement methods of an intellectual world-view, and strives to improve him/herself in these fields.

Is capable of learning and continuously improving communication skills and of self-reflection regarding abilities in this field.

Consciously and responsibly represents the consequent following and protection of the legal, ethical, and professional norms of society, professional field, and workplace.

Consciously represents methods used in the profession and accepts the methodological diversity of other scientific fields.

Accepts and realises a health-conscious attitude and lifestyle.

d. autonomy and responsibilities

Takes on an independent, innovative role in the professional environments of communication and media sciences in affirming his/her view on society.

In his/her own professional environment, develops a historically and politically coherent individual viewpoint that helps in the development and awareness of him/herself and the environment.

In a professional work environment, is capable of performing and managing complex tasks based on the professional standards.

Organises own work and the work of subordinates with an independence and responsibility that is appropriate for his/her place in the organisational structure.

Presents views at professional and social forums as a sovereign actor, represents the profession, organisation, and professional group responsibly.

Is independent, constructive, and assertive in forms of cooperation inside and outside the institution.

Takes responsibility for his/her professional publications in any language, is aware of their possible consequences.

8. Bachelor's degree characteristics

1. Professional properties

1. The scientific fields and areas that the training is based on are: Indicated competences may be attained by learning knowledge and skills regarding professional socialisation, and by learning the theoretical and practical knowledge built into the training communication and social science foundation courses 40-55 credits

[Man and Society, Social Communication, Introduction to Social Sciences, Introduction to Social Psychology; Introductory Practices Module, Communication Competences (Written and Media Communication Practices, Communication Research Methods)];

communication theory and practice studies, 101-116 credits (Fields of Communication,

Theories and Models of Communication, The Operation of Communication Institutions and the Communication Operations of Institutions, The Media Aspects of Communication, Culture and Communication, Visual Communication, Professional Practice Studies).

2. Specialisation recommended by the educational institution constitutes theoretical and practical knowledge that is capable of working on the given field, improves personal abilities, and results in specialised competences relevant to individual interests. The credit value of optional courses within studies of the practice and theory of communication is 40-44 credits.

2. Internship requirements

Internship is at least 80 hours, spent in institutions in the various fields of communication, in semester 4, but can be completed from semester 3

Defined in the Study and Examination Regulations.

9. Degree thesis/ Dissertation

The aim of the degree thesis is to demonstrate the student's knowledge and expertise in a chosen topic, scientific data collection, systematization, analysis and processing related to the chosen topic, discussion of the chosen phenomenon or problem, hypothesis creation, problem solving, analysis of alternative hypotheses, argumentation and in refuting the counter-arguments, in a coherent, consistent, language-oriented written explanation of his thoughts, views, positions, statements.

10. Type of Degree thesis

Research thesis.

11. Requirements for the issue of a final certificate

The University will issue a final certificate to the student who has obtained the study and examination regulation prescribed in the curriculum, and the required internship (professional experience), the required credits.

12. Conditions for admission to the final examination

Joint conditions for admission to the final exam:

- a. obtaining a final certificate,
- b. submission of the dissertation by the deadline,
- c. evaluation of the dissertation with a different grade than the deadline,
- d. registration for the final exam by the deadline,
- e. the student has no overdue payment debt to the University for the given training,
- f. accounted for with assets owned by the University (borrowed books, sports equipment, etc.).

A student who has not fulfilled any of the provisions of the points a)-f) cannot be admitted to the final examination.

13. Parts of the final exam

The final exam consists of the defense of the dissertation and the oral complex exam.

A komplex vizsga témakörei:

1. Communication Theories
2. Quantitative Communication and Media Research Methods
3. Qualitative Communication and Media Research Methods
4. Language in Culture and Society
5. Persuasive Communication
6. Media Communication
7. Media Literacy
8. Digital Marketing Communication
9. Project and Campaign Communication
10. Creative Visuality

14. Determining the result of the final exam

The weighted arithmetic mean of the following three digits, rounded to two decimal places:

- a. The grade given to the dissertation by the reviewer (s) - determined with a five-point qualification - in case of several reviewers the average of the marks of the reviews is rounded to two decimal places, and
- b. the grade obtained for the defense of the dissertation, the answer to the questions related to the dissertation - established with a five-level qualification
- c. the grade given for the oral complex examination - determined with a five-grade qualification - with double weight.

15. Components of diploma qualification, method of calculation

The result of the diploma is the arithmetic mean of the following two digits, rounded to two decimal places:

- a. the credit-weighted average of the marks of the compulsory and compulsory elective subjects (if the student has taken more than the compulsory elective subjects, then all the subjects taken) in the amount of credits prescribed in the curriculum, and
- b. the result (grade) of the final examination.

16. Conditions for issuing a diploma

A prerequisite for the award of a diploma certifying the completion of higher education is a successful final examination.

17. Specialization selection rules

Students choose three specialisations. In the chosen specialisation, students are ranked on the basis of their 1-2 semester cumulative credits weighted average.

Remarks

Type: C-compulsory courses, CE-core elective courses, E-elective (optional) courses

Methods of assessment: ex-exam (exam at the end of the semester, but other forms of assessment are possible during the semester), pg- grade based on the practical assignments given during the course of the semester, a=signature, ce- Comprehensive examination

A subject that can be completed in a preferential study schedule (PSS) on the basis of Section 92 of the Study and Examination Regulation (SER)

Physical education

Physical education is a criterion subject, the condition for obtaining a diploma is the completion of two semesters. The two semesters of physical education can be completed in 4 semesters from the start of studies. Students who have fulfilled the criterion can only take the subject in the form of reimbursement for a fee.

Foreign language

During their studies, students can study a foreign language free of charge for two semesters, including a specific language, within the framework of the elective subjects.

Students who have completed two semesters of language subjects may take additional language subjects only upon payment of a specified fee.

Curriculum

It is recommended to include the subjects in the schedule according to the sample curriculum. The student may deviate from this, taking into account:

1. the pre-study order,
2. semester of announcing subjects
3. completion of an average of 30 credits per semester

*: Hungarian Language is a compulsory subject for the students participating in the Stipendium Hungaricum scholarship program in the first two semesters.

The detailed rules related to the admission of the subjects and the completion of the subjects are included in the Study and Examination Regulations!

Please note that curriculum changes are possible!
