

Dear Graduate Student!

Congratulations on your successful university studies!

We would like to draw your attention to the fact that your status as a graduate student also affects your access to university systems.

Your Neptun code and password will still give you access.

Your free access to the Microsoft365 will be inactive at the same time as you get your graduated status.

When your Cusman status becomes inactive, you will no longer have access to the MyCorvinus Hub interface and mobile app.

You will have access to your Moodle courses for six months from the date of your graduated status. We recommend you to download all the necessary documents as soon as possible to avoid any inconvenience.

During your university studies, you have been learning through many platforms, keeping in touch with lecturers and fellow students. The change in your student status will affect your access to Neptun, Cusman, MyCorvinus Hub and Moodle.

Now that you have successfully completed your studies, it is important to know that your access will be partially terminated. The blue bar shows how long you will have access to your different user accounts.

If you have any questions regarding the issuance of a document, please contact us via this [link](#).

We created the **Corvinus Alumni Club** for our students graduating from Corvinus University of Budapest and its predecessor. The Club's online interface can be provided for networking, collaboration, and university involvement in the bloodstream.

We wish you good luck in the future!

Best regards,

Study Administration Services
